Prof. Lorenzo Watson.

Harvard. Cambridge, Mass

Sir:

I have the 2 parts published
of Gray's Systematic Botany, and am
very desirous of obtaining others.
I have from my sister Smithsonian
Institute (Walter P. Murray, Curator,
that you have the matter in charge
kindly inform me when another
part may be expected, and how
rapidly others may be expected to follow.

What will be the subject of next
volume. Those here, interested in Botany
look forward to the completion of this work
with great interest. Very Respectfully
W. L. B. Jenney
